

PULSAR GRIDGO

(ILLUSTRATION ONLY - NOT ACTUAL PRODUCT)

MOQ: 50

DESCRIPTION

**Mobile Emergency Backup Power for household use
mounted on a Dolly.**

Wifi-Monitoring app.

Maximum input power 4000W

MPPT voltage operating range 120-450V

Maximum input voltage 500VDC

Maximum input current 100A

Rated energy 5120Wh

Maximum charging voltage 28.8V

Maximum charging current 200A

Maximum discharge current 200A

CAN/RS485 comm.with inverter

Rated Inverter Power 3000W

Rated output voltage 230V

AC Voltage Range 170 - 280VAC

Rated output voltage 120V

Weight 250 lbs

OPTIONS

*** Separate Dolly with 4-6 prewired 400W
solar panels**

*** Additional Units mountable to increase
capacity to 10 KWh**
